Review Lesson

Warm-up

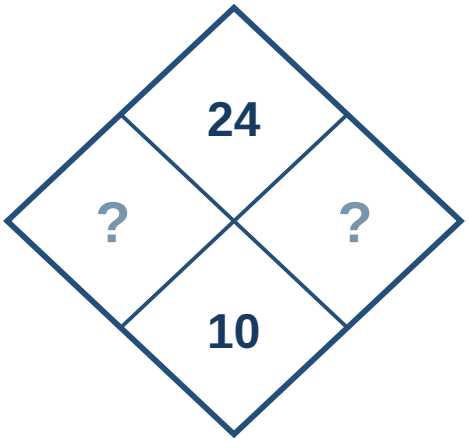

1 Solve

Solve for x. Show your work.

$$5x - 8 = 2x + 13$$

2 Diamond

Complete the diamond.

Top: product
Bottom: sum

Find the two missing numbers.

Warm-up & Review

3 Functions

Is {(−1, 4), (0, 4), (2, 4)} a function? Why?

4 Domain & Range

List the domain and range of {(2, 7), (4, 9), (6, 7)}.

Bubble your progress report

Complete the Chapter 2 progress bubbles on your report before beginning the review.

Open the Chapter 2 review

Use the review guide, then open the separate practice PDF. Save the practice PDF to Notability if you want to write on it.
